DETAILED ACTION

Claim Rejections - 35 USC § 102

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 27-30 are rejected under 35 U.S.C. 102(e) as being anticipated by Boukhny U.S.

Pat. No.6,077,285.

Boukhny discloses a longitudinal-torsional resonator comprising: a connection (proximal portion of (fig. 4)); a tip (distal portion of (fig.4)); and at least one portion located between said contact point and said tip having a spiral inhomogeneous cross section (13); and at least one hole extending from said tip to said connection point (figs 1 and 5).

Note: it is the examiner's position that the device of Boukhny is fully capable of performing the various functions as set forth by applicant's claims.

Response to Amendment

Applicant's amendments and arguments have overcome the examiner 112 rejections.

Therefore, the rejections have been withdrawn.

Response to Arguments

Applicant's arguments with respect to claims 27-30 have been considered but are moot in view of the new ground(s) of rejection.

Applicant should submit an argument under the heading "Remarks" pointing out disagreements with the examiner's contentions.

Art Unit: 3763

Applicant must also discuss the references applied against the claims, explaining how the claims avoid the references or distinguish from them.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Conclusion

Any inquiry concerning this communication or earlier communication from the examiner should be directed to Kevin C. Sirmons whose telephone number is (703) 306-5410. The examiner can normally be reached on Monday - Thursday from 6:30 am to 4:00 pm. The examiner can also be reached on alternate Fridays.
